Subject: RE: Recoil starter for EH100F47010

Dear Bill-san,

Regarding this EH10 series for Wacker rammer application,
Wacker prepared their own recoil starter and they are using our recoil pulley only.
So, our parts catalogue does not have recoil starter.

Please tell the customer to ask Wacker parts shop.

Thank you for understanding.

Best regards,

Kazuo Jito

Subject: FW: Recoil starter for EH100F47010

Jito-san
I have a customer looking for a recoil on an EH100 engine, but every part manual and BOM I look at does not have a part number listed for the recoil.
Can you help?
Thank you

Bill

Subject: RE: Recoil starter for EH100F47010

Abigail,
Part number 20F-50221-20, is for a different engine , the EH092F45014 and is not compatible with the EH100 series.

I could not find any part manual that listed the recoil, it is possible that it was supplied by the manufacturer of the equipment.

However let me check with the engineers in Japan first.

Regards, Bill

Subject: Recoil starter

Hello,

I need the recoil starter for M#:EH100F47010 8470. Customer found pn: 20F-50221-20, please let me if this is compatible or if it is another pn.

Thanks,

Abigail Pina
